Phone Age

Before leaving summer camp, Jed and some of his camp mates exchanged cell phone numbers. (They all had the same area code.) As he was riding home, Jed noticed an odd coincidence. The digits in each camper's phone number added up to his or her age. Can you match the cell phone numbers to the campers?

Sylvia, age 14	802-1005
Oliver, age 15	521-0600
Jaime, age 15	233-1202
Lara, age 7	410-2102
Ari, age 8	203-0002
Bruce, age 12	310-0050
Lola, age 9	202-4000
Joel, age 16	614-3001
Nate, age 10	321-1103
Ellis, age 13	401-3121

Start

Moonlighting

Trevor and his family took a hike in the moonlight. Now they need help finding the way back to their campsite. Can you find the path that will take them to their tents?
